1. Web GUI Mockups

The design of EcoVibe is based on earth tones and brown colors to create a natural and eco-friendly feel, matching the idea of giving clothes a second life. A minimalist style was chosen to keep the platform simple, with a clean and organized look.

Each mockup is designed to make navigation clear and easy, so users don't feel lost. The elements are arranged in a way that helps users complete actions like searching for products, signing up, or making a purchase. There is also an option to rate the seller's service, allowing users to share their experience and help improve the platform.

The Mockups are:

- Mockup - Login and Sign Up

The mockup displays a web interface for a second-hand clothing sale platform. At the top left, it says "SECOND HAND CLOTHING SALE" and at the top right, "LOGIN/REGISTER". The main heading "Eco-Vibe" is centered, flanked by decorative orange starburst icons. Below the heading are two side-by-side forms. The left form is titled "Login" and contains fields for "Username" and "Password", with a "Login" button at the bottom. The right form is titled "Register" and contains fields for "Username" and "Password", with a "Register" button at the bottom. At the bottom of the page, the tagline "Together we make fashion more sustainable" is displayed in a light blue font.
